Dear Susie, Lori, and Tina, I have very fond memories of your Mother. We shared some good times together years ago. We canned and cooked together and had fun Christmas and birthday celebrations at your home. The memories of years gone by will be in my heart. I hope the memories of your Mother will help comfort all of you. My thoughts and prayers are with you all. love Aunt Shirley###imported-begin###Shirley Whitney###imported-end##

I never got to meet Aunt Helen but I always felt that I knew her well. My mom spoke of her so often that I loved her dearly. Mom was like a little kid when she came home from her visit with Helen, she would light up every time she would talk about it. I am so glad they were able to see each other again, I wish we all could have been there. I love you all and am praying for you to have peace. Please keep in touch with us. Sincerely, Amy Napier Knight###imported-begin###Amy Knight###imported-end##

Know that your family in Kentucky is praying for you and love you. I wish I would have been able to meet my Aunt Helen. So often mom would tell stories of her and Helen growing up. So I feel as if I have known her all my life. I loved Aunt Helen and prayed for her all the time. I know if mom was able she would be there with you we all would. I pray that the Lord will wrap His arms around you and comfort you at this difficult time. Love your cousin, Tammy Napier Hignite###imported-begin###Tammy Napier Hignite###imported-end##

Sue, Tina, Lori, and family, My heart is broken for you and I wish we were able to be there with you during all of this. I know that nothing will be able to fill the void that is now present. You have a lot of precious memories that will forever be locked in your hearts, hold on to those. I wish that we could have been a greater part of those memories but, I am so thankful for the ones that I do have. My prayer for all of you is that God will comfort you and bring you peace, hope and healing for all of your tomorrows. Love all of you! Wilma###imported-begin###Wilma Maggard###imported-end##
